Additional Information you can Provide:
How it works:
SingleCare negotiates fair drug prices directly with major pharmacies like CVS,
Walmart, and Walgreens. We pass the savings onto our members, free of charge.

To start saving with SingleCare, a member just needs to show the savings card to their
pharmacist every time they fill a prescription at a participating pharmacy. The discount
will be automatically applied at checkout.

Members can use their card as often as they want. Cards do not expire. Cards may also
be used for family members' prescriptions and shared with friends.
